- OIL & GAS
- CONSUMER & COMMERCIAL
- MECHANICAL & ELECTRICAL
- RIGGING & LIFTING

## CORPORATE PROFILE

Rosco Procom Limited established as one of the largest supplier of engineered products and services to the Oil & Gas, Mechanical & Electrical, Rigging & Lifting, and Consumer & Commercial segments in the Caribbean Region. With 75 years of expertise, professionalism and innovative solutions, our objective is to offer a comprehensive product portfolio, which positively impacts our customers' operations.

Our vision is to be the benchmark solution provider, achieving superior results for our customers and shareholders while adding value to our employees and the communities we serve. We are fully committed to this journey by adhering to our core values of People-Centred, Integrity, Trust, Entrepreneurial Spirit and Uplifting.

As a member of the Agostini Group of Companies, Rosco Procom Limited has the capacity and competencies to remain a major player in all sectors that we serve.

# Series SLA Leakless Electric Pump

## OIL & GAS

### DRILLING, COMPLETIONS & PRODUCTION

NOV provides oilfield equipment such as PC pumps, Red Iron, Reciprocating pumps, Full Choke Assemblies and related technologies, with our service expertise that answer the challenges of oil and gas customers locally with safety, efficiency and reliability

TechnipFMC is a market leader in the design and delivery of Surface Wellheads and Trees for the oil and gas industry that meet or exceed API standards. The O&G local projects team provide the technical support and services for onsite installation and commissioning.

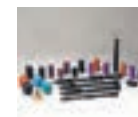

Echo - Echo Optimization leverages the industry's top tools such as Echometer Model E Well Analyzer and NR Tec Smart Shots to provide timely and accurate testing results.

LEUTERT serves the oil, gas and maritime industry. Leutert manufacture downhole fluid samplers and high pressure sample cylinders. Our dynamometers and fluid level recorders are the standard instruments to be used in artificial lift operations. We manufacture instruments for testing the physical and chemical properties of drilling fluids and cement slurries.

Oil States Industries manufactures a wide range of high-quality drilling and well servicing products. We offer plug/swab/packer cups, rope sockets, sucker rod guides, mandrels, fishing tools and valve products.

Harbison-Fischer provide us with specialized Artificial Lift Reciprocating Rod Pumps and Components. We provide polished rods, sucker rod couplings, pony rods and related sub surface equipment.

Ram-Gear Manufacturing Inc. manufactures gears and pinions for various industries and applications. We offer new and used (recertified) America brand pumping units and parts.

STREN provide industrial and oilfield filtration units for surface and sub surface. Our pump guard filtration screens ensure produced fluids are clean and have a sand-free wellbore for increased production flow and pump intake protection.

CMS manufactures and suppliers a broad range of hydraulic/mechanical set packers, retrievable bridge plugs, DLT packers, unloaders & storm valves, cement retainers (wireline & mechanical set). Rosco Procom Oil and Gas division can provide the technical and operational support required to deploy these downhole tools.

Newland Oil Tools are a casing technology company that provides you with safer and more efficient energy solutions from design through validation and manufacturing. We provide completion cable clamps, reamer shoes, float & guide shoes, float collars, centralizers, stop collars and the Ultimate Under Reamed Centralizer Solution ASLO™.

### PACKERS, BRIDGE PLUGS & RETAINERS

### CENTRALIZERS & FLOAT EQUIPMENT

## OIL & GAS

### LINER HANGERS

### CHEMICAL INJECTION

### FLUID CONTROL

### GAS SAMPLING SYSTEMS

Oilmech Drilling Equipments PVT. LTD is a recognized manufacturer of downhole products and offers a comprehensive range of centralizers, float equipment, packers, retainers, bridge plugs and cement heads for the completion and workover Oil and Gas Industry.

Allamon Tool Company design, manufacture and provide liner hangers and downhole tools for drilling and completion operations. The RoscoProcom team ensure that our Allamon custom-engineered liner hangers are delivered on time and deployed with excellence in every single well.

Checkpoint is a worldwide provider of Chemical Injection solutions. They design, manufacture and market the world's most reliable chemical injection pumps and pump packages, control panels, pressure test systems, process components and green energy solutions using high quality components and are tested to the highest standards. We offer technical support and services in conjunction with local operational support via Rosco Procom O&G Division.

Weir Oil & Gas creates innovative engineering solutions for minerals and mining technology markets. SPM Oil & Gas produce a full line of pumps, flow iron, consumable parts, wellhead and pressure control products. The servicing, maintenance and recertification of high-pressure iron are offered via Rosco Procom O&G Testing and Certification department.

Intervention Energy Services is a leading provider of inspection, refurbishment and supply of assorted sizes and types of pressure control equipment and services in North America. We offer asset tracking with the belief that competent people coupled with the latest technology provides the best quality.

AWC Indeed is a trusted provider specializing in the design, manufacturing, and distribution of pressure control and wellhead equipment, as well as API 6A frac valves, large bore gate valves, accumulators, and remote stands. We provide hydraulic accumulators, power units, flowline products and ancillary products.

YZ Systems has extensive experience in the provision of sampling solutions for gas and liquids. Their odorization systems are engineered to measure and inject precise amounts of liquid odorant into each cubic foot, or meter of gas that flow. Rosco Procom T&C Department provides the in-house servicing and refurbishment of these sampling systems.

### CORROSION CONTROL

HJ3 Composite Technologies provides patented carbon fiber solutions for critical infrastructure applications worldwide, at a fraction of the cost of replacement. HJ3 composite systems offer superior strength and durability and are backed by a team of design and application engineers to support the critical nature of our customers' applications. Rosco Procom O&G team provides onsite operational support with installation and repair services.

Indumar has been providing leak repair, remediation and corrosion solutions since 1986. Our composite wrap solutions are installed upstream, downstream and in diverse industrial processes and environments. Rosco Procom O&G team provides onsite operational support with installation and remedial services.

Rodatech offers state-of-the-art technologies and top-notch service with reduced response times. We offer liner expandable hangers, drill stem testing, inflatable & swellable packers, well abandonment equipment, rod lift and PCP. The Enercat (frequency tool) patented technology harnesses vibrational energy to improve flow efficiency, prevents deposition, enhances fluid stability, eliminates paraffin, scale, emulsions and reduces viscosity of heavy oil while increasing API gravity to reduce friction.

### VALVES

OTECO, Inc. has been a leading manufacturer of high quality oilfield equipment and accessories since 1948. Our product offerings include BOP accessories, pressure relief valves, shear relief valves and repair kits.

FET Pipeline valves provide value-added solutions which increase safety and efficiency within the oil, natural gas, and renewable energy industries. We provide Floating & Trunnion Ball, Gate, Globe, Check and Butterfly valves.

Balon Corporation is an established manufacturer of Floating Ball Valves, Trunnion Ball Valves, Swing Check Valves and Needle Valves for the Oil and Gas Industry.

Neway Pipeline & Wellhead valves provide complete solutions for a wide range of Oil & Gas and Industrial valve applications and services. Including API 6A and 6D Ball, Gate, Globe, Check valves.

Mueller Co. manufactures and provides products and services used in the transmission, distribution and measurement of water. They provide a wide variety of main valves and hydrants for water distribution systems around the world. Our leading brands include Mueller, Pratt, Hydro Gate and LVC.

**VALVES**

Mercer Valve Co. Inc is committed to safely providing the highest quality pressure relief valve featuring our patented "Auto Seat Technology" at a competitive price, delivered on time, and serviced by our trained professionals.

Taylor Valve Technology is a leading manufacturer of high-quality safety, high-pressure and back pressure relief valves. Our wide array of safety valve products are designed to meet quality API and ASME Code requirements. High-demand Oil & Gas industries, chemical plants, power generators, and the processing industry depend on our valves for consistency and durability.

SOFIS (Previously known as Smith Flow Control) is a manufacturer of mechanical interlock systems for valves. These locks make sure that valves can only be opened or closed in a pre-determined order. Interlocking is a tested and trusted method for safe work based on exchanging coded keys. Sofis also offers an array of supporting equipment such as their Easidrive & Flexidrive systems, Anti-Tamper locks and designed Key Cabinets.

ASC Engineered Solutions Offers precision-engineered pipe fittings, pipe joining systems, flexible pipes, industrial valves, actuation & controls. ASC offer engineering knowledge and information (with accurate product information including BIM and CAD drawings, seismic bracing design, REVIT software plug-ins and other dedicated tools that simplify design) along with expert support and engineering services.

Taylor Forge Engineered Systems (TFES) For over 100 years, TFES has engineered value into products for a variety of industries including gas transmission, offshore, gas processing, petroleum refineries, power plants, nuclear facilities, chemical plants, and aerospace facilities. Products include Slug Catchers, Pressure Vessels, Pig Launchers/Receivers, Extruded Headers and Shell & Tube Heat Exchangers.

Val-Matic products are engineered to provide valuable features such as energy savings, low maintenance, and long life. We offer trunnion, rubber seated, butterfly, plug, swing-flex, surge buster and swing check valves. Val-Matic manufactures the most comprehensive Air Relief Valve product lines offered today.

**WASTE WATER &  
CHLORINATION**

De Nora Water Technologies is a leading supplier of water and wastewater treatment solutions. OMNIPURE offers effective electrolytic treatment of both black and grey water through a patented and certified process. They are specifically manufactured for marine and offshore installations requiring permanent or long-term operation for sewage treatment.

## OIL & GAS

### HEAT EXCHANGERS & COOLING

#### SPXFLOW

SPX FLOW portfolio of APV ParaFlow is designed to satisfy your heat transfer needs. With APV's selection of materials, connections and accessories, they can supply equipment for practically every heat transfer need. The ParaWeld and Paramine technologies expand the boundaries for gasketed plate heat exchangers.

#### HUDSON Products Corporation

Hudson Products Corporation, the global leader in Air-Cooled Heat Exchangers since 1939. With advanced proprietary technology and a commitment to quality, Hudson has revolutionized air cooling in gas plants and refineries worldwide. Chart has brought together Hudson Products, Air-X-Changers, Smithco, Hammco and Cooler Service Company to provide heat transfer solutions across upstream, midstream, downstream, refinery, petrochemicals, power and others.

### EXPANSION JOINTS

#### Hyspan Est. 1968

Hyspan has solutions for all Industrial and HVAC piping flexibility requirements, bellows expansion joints, packed slip expansion joints, piping ball joints and ball joints for industrial applications.

### SEALING DEVICES/ MRO TECHNICAL PRODUCTS

#### CHESTERTON Global Solutions, Local Service.

Chesterton is a trusted provider of industrial solutions, specializing in products that improve equipment reliability, efficiency, and performance. Our comprehensive lineup of products, including sealing solutions, lubricants, coatings, and maintenance equipment, designed to enhance productivity and prolong equipment lifespan.

### PRESSURE GAUGES

#### ASHCROFT Trust the Ashcroft

Ashcroft gauges, a leading manufacturer of pressure and temperature instrumentation, Ashcroft serves diverse sectors with a wide range of gauges including process, industrial, digital, differential, commercial, test, and sanitary gauges.

#### AMETEK

AMETEK Sensors, Test & Calibration (STC) is one of the world's leading manufacturers and developers of calibration instruments for temperature, pressure and process signals as well as for temperature sensors both from a commercial and a technological point of view.

We offer Crystal Engineering products of Ametek STC, which includes a comprehensive range of pressure, temperature, and process calibrators, pressure gauges, temperature sensors, pressure recorders, multifunction calibrators, pump systems, software and accessories. We offer local technical support, field and factory service capabilities and calibration.

**Protect buried lines and exposed pipelines with Hempel's tough, abrasion-resistant coatings.**

## CONSUMER & COMMERCIAL

### INDUSTRIAL COATINGS

Our dynamic range of products protect, beautify and improve the performance of our customers' most valuable assets. They help minimise maintenance costs, improve aesthetics, reduce waste and increase energy efficiency.

### HIGH TEMPERATURE COATINGS

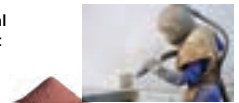

Dampney specializes in Industrial, high-temperature protective coatings for metal structures.

### BLASTING ABRASIVES

GMA Garnet Group (GMA) is the global leader in industrial garnet and has been providing the highest quality garnet abrasive to the waterjet cutting and protective coating industries for over 35 years.

### CORROSION INNOVATIONS

Chlor\*Rid is a world-leading soluble salt remover, compatible with all coating.

#### CHLOR\*RID *SP8 RINSE*

Prevents flash rusting after blasting, by passivation only. 72 hours capability, but dependent on the environment. Leaves no residue.

Removes soluble salts, non-water contaminants, all surface contaminants, embedded abrasives and flash rust.

HOLD\*BLAST surface passivator stops the formation of flash rust for long periods of time, often several days.

#### Chlor\*Test™

Tests for chlorides only.

#### Chlor\*Test CSN™

Tests for chlorides, sulfates and nitrates.

#### CSN Kit™

Complete kits with case, meter and 5 CSN tests for field use.

## SAFETY & PROTECTION

We strive to deliver comfortable, well-designed personal protective equipment (PPE). From identifying hazards to providing education and training, 3M can help you get your job done and get your workers back home through the science of safety.

Bringing together a history of innovation and excellence, 3M Personal Safety Division offers its customers access to the quality products, people and service of the trusted 3M™ DBI-SALA and 3M™ Protecta Fall Protection brands.

Mechanix Wear uses technology to bring you the best in all work, safety, and tactical gloves.

Outfit your organization and customers with quality workwear. We are the authorized retailer of Dickies workwear. Dickies is an iconic American brand and a leader in authentic, functional, and durable apparel.

Bulwark, the world's leading flame-resistant (FR) apparel brand. And the relentless protectors of the people who power the world. From outfitting you with the finest, most advanced, most intuitively designed FR products ever made, to surrounding you with the industry's premier FR education programs and consultative services with over 50 years of frontline experience, we are your total FR solution.

**QUALITY AND RELIABILITY YOU CAN TRUST.**

## MECHANICAL & ELECTRICAL

### GENERATORS

The KOHLER brand offers a complete range of portable gensets, industrial generators and rental generating sets.

ASCO is a global leader in the manufacture of transfer switches, paralleling switchgear, power control, load banks and surge devices.

ABB's power and productivity for a better world. ABB is a global technology leader in electrification and automation. We see our purpose as being to enable a more sustainable and resource-efficient future. By connecting our engineering and digitalization expertise, we help industries run at high performance, while becoming more efficient, productive and sustainable so they outperform.

### MOTORS

WEG is one of the world's largest electric motor manufacturers that specializes in motor protection, speed variation, industrial process automation and power generation.

WEG provides global solutions for electric motors, variable frequency drives, soft starters, controls, panels, transformers, and generators.

Bauer Compressors manufactures a broad range of compressor systems for various breathing-air and industrial applications.

### COMPRESSORS/ BLOWERS

Providing the world's most demanding and ever-changing compressed air, pressure and vacuum needs.

Providing the most dynamic, rugged rotary screw air compressors and reciprocating air compressors you can buy.

Kinney vacuum pumps and vacuum boosters are used in applications around the world, and stand up to the demands of harsh processes.

### TANKS

A comprehensive manufacturer of pressure vessels for the containment of LPG, air, refrigerants and other industrial/domestic applications.

## MECHANICAL & ELECTRICAL

### TANKS

From 25 gallons to 4,000 gallons, we build tanks for industrial, agricultural, automotive, commercial and residential use.

### CRANES

Fassi Knuckle Boom cranes can be integrated with various types of vehicles, as different kinds of installations are available to satisfy the varied demands of load handling

### HYDRAULIC PUMPS

Our gear pumps include versions for medium, high and very high pressure (up to 320 bar), in various configurations (DIN, UNI, ISO, SAE) and displacement sizes (from 6 to 150cc).

Permco is a leading manufacturer of high-pressure hydraulic gear/vane pumps and motors, flow dividers, intensifiers, and accessories.

With one of the most expansive offerings of hydraulic pumps on the market, Eaton delivers unmatched functionality and durability for a variety of industrial applications.

### PUMPS

Aro provides fluid handling solutions for customers and industry around the world including manufacturing, chemical, energy, mining, pharmaceutical, and more.

Ebara provides engineered pump, pump products and related services for the water, wastewater, commercial, municipal, energy and power industries offering reliable product knowledge, application expertise and responsive support including aftermarket replacement parts services.

Barnes sump pumps feature low cost, high performance benefits from a rugged, heavy duty design.

Barnes sump pumps feature low cost, high performance benefits from a rugged, heavy duty design.

## MECHANICAL & ELECTRICAL

### PUMPS

Fybroc is the world leader in the design and manufacture of Fiberglass Reinforced Polymer (FRP) pumps. They are available in different materials to provide excellent corrosion resistance for tough applications, including the pumping of acids, brines, caustics, bleaches, solvents, seawater and a wide range of waste liquids.

With a range of pumping solutions including sump pumps, dewatering pumps, piston diaphragm pumps and slurry pumps available, our teams can work with you to find the right pump for your specific application and optimise your operations.

When operated properly, Fruitland vacuum pumps will run cooler, use less oil and provide much longer service than any other rotary vane vacuum pump.

Madden Manufacturing, Inc. designs and manufactures diaphragm type metering pumps for chemicals and industrial steam system equipment.

An unmatched combination of products, engineering and aftermarket services, we help our customers achieve tangible business results: lower operating costs, optimized performance, prolonged equipment life, mitigated risks and higher productivity.

Dynamic, specialized and high-tech products for water and energy management.

Jurop Vacuum Pumps are high quality vacuum and pressure pumps used in applications such as septic tanks, portable toilets, municipalities, agriculture, industrial tank cleaning, stationary suction plants, and much more.

### TOOLS & HYDRAULICS

SPX FLOW brand Power Team specializes in high-pressure hydraulic technology. Through a broad range of leading-edge components parts, accessories and industrial tools.

### SPARK ARRESTORS

Western Tydens, manufactures in the UK a complete range of diesel engine exhaust solutions.

## MECHANICAL & ELECTRICAL

**CHALWYN**

A wide range of fully automatic and manual shutoff systems and will help you find a system that meets your requirements.

**Martin**  
SPROCKET & GEAR, INC.

MARTIN Sprocket power transmission and conveying products Bushings, Couplings, Sprockets, Idlers, Pulleys, Screw Conveyors and more!

### TEMPERATURE PRODUCTS

**NEWTEX**

Newtex Performance TM flat knitted tapes employs a unique knitted construction that offers specific advantages over woven tape in certain applications.

**NEWTEX**

Newtex Performance Materials are commonly used in refineries, foundries, shipyards, military & defense projects, construction sites, power generation, process equipment & petrochemical plants, and other environments. Learn more about the high temperature products that Newtex offers for your specific application or industry.

### FILTRATION

**3M**  
SPSD

When it comes to optimizing your process, you need just the right solution for the job. That is why customers around the world turn to 3M Filtration and Separation Solutions.

**CELEROS**  
FLOW TECHNOLOGY

**DOLLINGER**  
FILTRATION

Dollinger has been able to develop and manufacture cutting-edge contaminant removal systems that dramatically improve air and fluid quality. We can thereby safeguard pipework, high-speed turbo compressors, turbines and blowers from damage or fouling of their moving parts, by the presence of harsh or aggressive contaminants, working under extreme operating conditions.

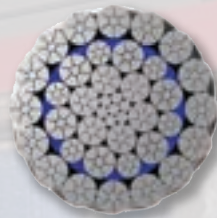

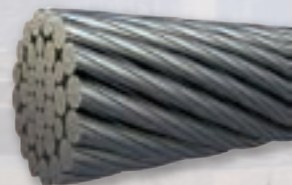

High Performance Compacted Wire Ropes

**Bridon® Dyform 34LR MAX**

High Performance Compacted Wire Ropes

**Bridon® Dyform 34LR**

High Performance Compacted Wire Ropes

**Bridon  
Dyform 18M / 18M PI**

## RIGGING & LIFTING

### LIFTING SYNTHETIC

Axiom Cordages Limited - Heavy Duty Flex Ropes, Industrial Strand Polyamids Ropes & Mooring Tail Ropes.

High-quality J&L rigging and sling products, Web & Round Slings, Load Binders, Sling Material, Ratchet Assemblies

Global technology leader in the manufacture of wire and rope solutions for the world's most demanding applications

The ropes produced by Celik Halat in a wide range of diameters from 6mm to 83mm have been used for many years in various sectors such as construction, marine, fishing, oil, mining, and in elevators, chairlifts, cranes.

### LIFTING EQUIPMENT

R&M's wire rope hoists, electric chain hoists & crane components will help you rise above your material handling challenges.

Able Forge a leading manufacturer of quality rigging and lifting products for heavy industry applications which is diversified into manual chain blocks, lever hoists, lifting clamps, trolleys, bearing swivells, chains and rigging handling materials.

Robust and reliable products, constant innovation and patented designs ensure Tiger meets your lifting requirements. We are perfectly positioned to provide best-in-class products to our global customer base.

The manufacturing and distribution of high quality chain and chain related products since 1892.

Certex sets the standard for rigging supplies, lifting products and world-class fall protection as well as the top industrial rescue courses and critical testing services.

## RIGGING & LIFTING

### LIFTING ACCESSORIES

Yoke has a global presence and a superb reputation when it comes to rigging fittings such as hooks, swivels, ROV shackles, sockets, snatch blocks and more. Yoke products are DNV GL certified for complete traceability. Yoke offer a specialist line of equipment particularly designed for offshore applications and ROV activities.

Welcome to the world's leading manufacturer of premium quality lifting equipment.

Gunnebo Industries are global leaders in several areas within the lifting and material handling industry for which they manufacture products such as crane blocks, wire rope sheaves, chain & lifting components, shackles and lashing products. Their products are well known and established on the market as a premium product with outstanding safety.

Hilman Inc. designs, engineers and manufactures high capacity rollers, powered heavy moving systems, and custom load moving solutions.

Green Pin® is the leading brand for chain and wire rope fittings in the world. Green Pin® offers you premium quality rigging equipment, unrivaled stock availability of 99% and first-class customer support.

Harsh working environments dictate the need for quality products for all commercial and industrial applications. At Certags, we pride ourselves on the durability of the products we manufacture and can guarantee that our heavy-duty tags & labels will be suitable in any environment.

Tandemloc's container lifting lugs have a variety of uses and applications. Our lugs are made with the toughest metal in the industry, are of the highest quality container lugs, and are built to last. Below, you can click on "view product" for more details, specifications, and videos of each individual lug.

HIGHEASY Push Pole High quality, competitive price, excellent service and quickly delivery.

## RIGGING & LIFTING

### MACHINERY

New and Innovative Products and Processes for the Lifting, Rigging, and Load Securement Industry.

Conductix-Wampfler, fully owned by Delachaux Group, is one of the world leaders in the design and manufacture of efficient energy and data transmission systems for all types of mobile equipment and machinery.

### LUBRICATION

The Kirkpatrick Group, Inc. developed the world's leading wire rope lubrication systems through our decades of amassed expertise.

Wire Rope Dressing is manufactured from high quality petroleum base stocks, carefully blended with selected soaps and additives. It is designed as a field dressing for drum hoist ropes and is equally recommended for rope lubrication on shovels and drag lines.

### SERVICES

At Ingersoll Rand, we pride ourselves as being the quality choice no matter the application. For years we have provided lifting and pulling solutions for various uses all over the world. If your business has a question, we will have an answer.

3M Fall Protection offers inspection, repair maintenance, and yearly certification for DBI-SALA® and PROTECTA® Brand products.

### CRANES

Oil States Nautilus™ line of marine cranes is respected worldwide for quality, safety and engineering excellence. Nautilus™ marine cranes are in use around the world on all types of fixed and floating structures such as offshore production platforms, TLPs, spars marine vessels and on dockside mount applications.

### HOISTS

Reliable, Tough, Rugged Oil field recovery, offshore drilling, trailer winch, mobile crane and utility. PACCAR Braden hoists have allowed us to provide our customers with a high quality product, providing safe operation for their tower hoisting needs.

# OUR SERVICES:

Rosco Procom provides a range of services tailored to the **Oil & Gas, Consumer & Commercial, Mechanical & Electrical and Rigging & Lifting Industries.**

## OIL & GAS DIVISION

### Oil Well Equipment

- Collection, Repair, testing and return of subsurface pumps (reciprocating rod pumps and progressive cavity).
- Spacing of progressive cavity pumps.
- Assembly, repair, installation of new and used Pumping units, drive heads.
- Cleaning of down hole filtration equipment (sand screens).
- Repair and testing of Echometer liquid level monitoring equipment.

### Rig Spares

- Valuation and inspection of Land Production and drilling rigs.
- Repair and testing of land rig draw-works, crown-o-mantic systems and crown components.
- Inspection, repair and testing of Blow out preventers, elevators, spiders, slips, rotary tables and associated tubular handling equipment.

### Testing, Certification and Calibration

- T&C unit offers OEM and industry-standard qualification testing, function testing and certification of new equipment, as well as recertification of equipment on which the certification has expired

### Valves

- Relief valve repair, testing and re-certification inclusive of Shear relief valves.
- Valve actuation.
- Industrial Valve coatings.
- Valve testing and service.
- Inspection of Pig trap closures.

### Rentals

- Digital Pressure Gauges
- Pressure Relief Valves
- Val-Tex Pumps
- Chemical Injection Skids
- Haskell Pumps

# OUR SERVICES:

## CONSUMER & COMMERCIAL DIVISION

- Mobil Serv Lubricant Analysis delivers the full spectrum of analysis on your Mobil™ branded lubricants. In-service oil analysis is essential for assessing the health of your operation.

## MECHANICAL & ELECTRICAL DIVISION

### Mechanical and Electrical Repair

- Generators – Load testing up to 500 KVA and Power requirement audits
- Pumps – Vertical, Centrifugal, Sump pumps, Submersible, Metering, Progressive Cavity Pumps, Gear, Chemical Injection, Vacuum, Lube, Diaphragm
- Compressors – Reciprocating and Rotary screw
- VFD and Controls – Repair and installation

### Hydraulic

- Major Hydraulic component repair, re-sealing, testing and re-certification.
- Design, fabrication and installation of Custom Hydraulic systems and power units.
- Hydraulic cylinder disassembly, repair and testing. Jib Arm Truck Crane installation.
- Design, fabrication, installation and repair of truck hydraulic power units “wetpacks”.
- On-site Hydraulic Oil Filtration.
- Installation, troubleshooting and repair of Vacuum systems.
- Installation, repair and testing of Marine hydraulic systems inclusive of steering systems

### Rentals

- Load Banks

## RIGGING & LIFTING DIVISION

### General Lifting Equipment (Thorough Visual Examination)

- Wire rope
- Wire rope slings and fittings
- Man-made fibre slings
- Chain slings
- Shackles, Hooks
- Open Wedge sockets
- Eye bolts and pad eyes
- Hydraulic cylinders
- Rigging screws / turnbuckles

**Installation, inspection, maintenance and repair of fall protection/prevention equipment (inclusive of self-retracting lifelines and horizontal lifelines).**

# OUR SERVICES:

## RIGGING & LIFTING DIVISION Con't

### **General Lifting Equipment (Thorough Visual Examination)**

- Manual hoists (chain blocks)
- Lever hoists (pull lifts)
- Beam clamps, beam trolleys
- Lifting clamps
- Sheave blocks, crane blocks
- Jacks and pumps
- Other miscellaneous lifting gear

### **Winches & Powered Hoists/Load Testing Units**

- Manual winches
- Utility winches
- Man-riding winches
- Powered hoists
- Lifeboat, life raft davit winches
- Authorized Braden Repair Center

### **Pedestal & Mobile Cranes**

- Certification
- Position / Location
- Safety devices (verification)
- Marine & Offshore Pedestal Cranes
- Testing (proof / NDE)
- Man-riding certification
- Inspection

### **Overhead Travelling Cranes, Runway Beams & Swing Jibs**

- Runway beams: Thorough visual inspection / deflection
- Thorough visual examination for Travelling and Gantry cranes
- Swing Jobs
- Proof testing and function testing
- NDE examination

### **Containers, Baskets & Other Cargo Carrying Units (CCUs)**

- Magnetic particle inspection
- Liquid penetrant testing
- Ultrasonic Testing (Digital thickness)
- Inspection, Testing and Certification

### **Forklift Trucks, Teletrucks & Stackers**

### **Non-Destructive Testing**

# OUR SERVICES:

## RIGGING & LIFTING DIVISION Con't

### Forklift Trucks, Teletrucks & Stackers

- Legislation and standards
- Components parts inspection
- Load handling attachments inspection
- Man-riding and man-riding working platforms non-integrated
- Articulated Jib Cranes (Truck mounted crane/Hiab Inspection and Certification)

### Non-Destructive Testing

- Magnetic Particle Inspection
- Liquid Penetrant testing
- Ultrasonic testing (Digital thickness)

### Support Services

- Drops survey
- Lifting gear register
- Raw material traceability
- Lifting gear survey and evaluation
- Computerized pull-testing up to 300 tons
- Field proof testing of lifting appliances (chain hoist, lever hoist, wire rope puller etc)
- Field spelter socket termination services
- Field splicing of three & eight strand synthetic ropes
- Load cell verification
- Technical support
- Product sourcing
- Critical Spares Analysis (Offshore Pedestal Cranes)

### Equipment Rental

- Wire rope lubricator
- Hydraulic Power Unit
- Waterbag & Load Cell rental
- Toolboxes
- Filter carts
- Solid Weights

### Cloud Based Document Management

- RFID Chip tagging of lifting gear and appliances
- Real Time cloud access to certificates and related documents and dossiers for assets by the client
- Quick Turnaround on Inspections
- Client can be provided with status reports on assets
- Significantly reduces or eliminates documentation errors
