PRODUCTS & SERVICES

Oil & Gas

Commercial & Consumer

Mechanical & Electrical

Rigging & Lifting

Mobil™

An amalgamation of two powerful businesses, Rosco Petroavance Limited and Process Components Limited, into a new and dynamic entity! **Rosco Procom Limited** is now established as the largest supplier of Engineered products and services to the Oil & Gas, Mechanical & Electrical, Rigging & Lifting, and Commercial & Consumer segments in the Caribbean Region. With over 70 years of expertise, professionalism and innovative solutions, our objective is to offer a comprehensive product portfolio, which positively impacts our customer's operations.

Our vision is to be the benchmark solution provider, achieving superior results for our customers and shareholders while adding value to our employees and the communities we serve. We are fully committed to this journey by adhering to our core values of Winning with Integrity, Respect for Employees, Customer Commitment, Personal Accountability and Teamwork & Unity.

As a member of the Agostini Group of Companies, **Rosco Procom Limited** has the capacity and competencies to continue being a major player in all sectors that we operate.

Oil & Gas

PRODUCTION & COMPLETIONS

NOV provides oilfield equipment, technologies, and expertise that answer the challenges of oil and gas customers worldwide with safety, efficiency and reliability.

TechnipFMC is a leading technology provider to the well-head industry; delivering fully integrated and dynamic projects, products, and services.

Echo Optimization leverages the industry's top tools such as Echometer Model E Well Analyzer and NR Tec Smart Shots to provide timely and accurate testing results.

Since 1941, LEUTERT has been manufacturing instruments for the oil and gas industry. We are the leading supplier of surface and downhole fluid samplers as well as high pressure sample cylinders.

Today's Oil & Gas projects are complex and challenging. They demand tools that meet strict safety and performance requirements. Oil State Industries manufactures a wide range of high-quality drilling products.

Our rod pump components are manufactured to meet or exceed industry API standards.

EXPANSION JOINTS

Hyspan has solutions for all Industrial and HVAC piping flexibility requirements, Bellows Expansion Joints, Packed Slip Expansion Joints, Piping Ball Joints and ball joints for industrial applications.

GAS SAMPLING SYSTEMS

YZ Systems' Odorization Systems are engineered to measure and inject precise amounts of liquid odorant into each cubic foot, or meter of gas that flow.

CORROSION CONTROL

HJ3 Composite Technologies provides the most comprehensive line of strengthening products in the world for fortifying and protecting structures against earthquakes, blasts and environmental damage, at a fraction of the cost of replacement. HJ3 can extend the life of your structures by 30 years.

Oil & Gas

FLUID CONTROL

SPM®

The Weir Group creates innovative engineering solutions for minerals and mining technology markets.

TechnipFMC is a leading technology provider to the well-head industry; delivering fully integrated and dynamic projects, products, and services.

VALVES

Val-Matic utilizes the latest design and manufacturing technology coupled with close attention to industry requirements.

Oteco, Inc. has been a leading manufacturer of high quality oilfield equipment and accessories since 1948. Our product offering is extensive and is manufactured to exacting standards for long lasting performance under tough oilfield conditions.

FET provides value-added solutions that increase safety and efficiency within the oil, natural gas, and renewable energy industries.

Balon Corporation - Manufacturer of Floating Ball Valves, Trunnion Ball Valves, Swing Check Valves and Needle Valves for the Oil and Gas Industry.

Neway products are designed for a wide range of industrial applications and services. Social. Community Engagement. Human Rights.

Mueller Co. manufactures and provides a wide variety of main valves for water distribution systems around the world marketed under reliable brands.

Mercer Valve Co., Inc® is committed to safely providing the highest quality pressure relief valve featuring our patented "Auto Seat Technology"® at a competitive price, delivered on time, and serviced by our trained professionals.

Oil & Gas

VALVES

Sofis is a manufacturer of valve operation systems such as mechanical valve interlocks, portable actuators and valve position indicators.

ASC Engineered Solutions offers precision-engineered pipe fittings, valves & related services and BIM files.

Ram-Gear manufactures gears and pinions for various industries and applications.

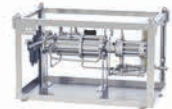

Val-Tex has earned the most valve manufacturer recommendations because we provide the highest quality products along with innovative solutions for ensuring proper valve operation.

CHEMICAL INJECTION

Metallic & Non Metallic Diaphragm Pumps for Chemical Industrial Applications.

WASTE WATER & CHLORINATION

De Nora Water Technologies is a leading supplier of water and wastewater treatment solutions.

COOLING

SPX FLOW constructs holistic production lines and unit operations to build a competitively optimal chemical processing system.

Hudson is a world renowned brand for air cool heat exchangers and home to Tuf-Lite fans.

Commercial & Consumer

LUBRICANTS

Our line of synthetic and premium mineral oil-based lubricants are designed to protect oil and gas machinery operating in the challenging and diverse environments you find yourself in. Mobil™ industrial lubricants for energy exploration are designed for operating environments found in the onshore oil & gas exploration and production industry.

Mobil Serv Lubricant Analysis delivers the full spectrum of analysis on your Mobil™ branded lubricants. In-service oil analysis is essential for assessing the health of your operation, providing crucial information that can help increase productivity, reduce downtime, improve equipment durability, and lessen lubricant consumption.

INDUSTRIAL COATINGS

Our dynamic range of products protect, beautify and improve the performance of our customers' most valuable assets. They help minimise maintenance costs, improve aesthetics, reduce waste and increase energy efficiency.

BLASTING ABRASIVES

GMA Garnet Group (GMA) is the global leader in industrial garnet and has been providing the highest quality garnet abrasive to the waterjet cutting and protective coating industries for over 35 years.

SAFETY & PROTECTION

We strive to deliver comfortable, well-designed personal protective equipment (PPE). From identifying hazards to providing education and training, 3M can help you get your job done and get your workers back home through the science of safety.

Bringing together a history of innovation and excellence, 3M Personal Safety Division offers its customers access to the quality products, people and service of the trusted 3M™ DBI-SALA® and 3M™ Protecta® Fall Protection brands.

Outfit your organization and customers with quality workwear. We are the authorized retailer of Dickies workwear. Dickies is an iconic American brand and a leader in authentic, functional, and durable apparel.

Mechanix Wear uses technology to bring you the best in all work, safety, and tactical gloves.

Mechanical & Electrical

GENERATORS

The KOHLER-SDMO brand offers a complete range of portable gensets, industrial generators and rental generating sets.

ASCO is a global leader in the manufacture of transfer switches, paralleling switchgear, power control, load banks and surge devices.

MOTORS

WEG is one of the world's largest electric motor manufacturers that specializes in motor protection, speed variation, industrial process automation and power generation.

WEG provides global solutions for electric motors, variable frequency drives, soft starters, controls, panels, transformers, and generators.

COMPRESSORS/
BLOWERS

Bauer Compressors manufactures a broad range of compressor systems for various breathing-air and industrial applications.

Providing the world's most demanding and ever-changing compressed air, pressure and vacuum needs.

Providing the most dynamic, rugged rotary screw air compressors and reciprocating air compressors you can buy.

Kinney vacuum pumps and vacuum boosters are used in applications around the world, and stand up to the demands of harsh processes.

TANKS

A comprehensive manufacturer of pressure vessels for the containment of LPG, air, refrigerants and other industrial/domestic applications.

From 25 gallons to 4,000 gallons, we build tanks for industrial, agricultural, automotive, commercial and residential use.

Mechanical & Electrical

CRANES

Fassi Knuckle Boom cranes can be integrated with various types of vehicles, as different kinds of installations are available to satisfy the varied demands of load handling.

Effer are a popular choice for construction, mining and marine industries and boast a power/weight ratio that is the best on the world market.

HYDRAULIC PUMPS

Our gear pumps include versions for medium, high and very high pressure (up to 320 bar), in various configurations (DIN, UNI, ISO, SAE) and displacement sizes (from 6 to 150 cc).

Permco is a leading manufacturer of high-pressure hydraulic gear/vane pumps and motors, flow dividers, intensifiers, and accessories.

With one of the most expansive offerings of hydraulic pumps on the market, Eaton delivers unmatched functionality and durability for a variety of industrial applications.

PUMPS

Aro provides fluid handling solutions for customers and industry around the world including manufacturing, chemical, energy, mining, pharmaceutical, and more.

Ebara provides engineered pump, pump products and related services for the water, wastewater, commercial, municipal, energy and power industries offering reliable product knowledge, application expertise and responsive support including aftermarket replacement parts services.

Barnes sump pumps feature low cost, high performance benefits from a rugged, heavy duty design.

Barnes sump pumps feature low cost, high performance benefits from a rugged, heavy duty design.

Mechanical & Electrical

PUMPS

Fybroc is the world leader in the design and manufacture of Fiberglass Reinforced Polymer (FRP) pumps. They are available in different materials to provide excellent corrosion resistance for tough applications, including the pumping of acids, brines, caustics, bleaches, solvents, seawater and a wide range of waste liquids.

With a range of pumping solutions including sump pumps, dewatering pumps, piston diaphragm pumps and slurry pumps available, our teams can work with you to find the right pump for your specific application and optimise your operations.

When operated properly, Fruitland vacuum pumps will run cooler, use less oil and provide much longer service than any other rotary vane vacuum pump.

Madden Manufacturing, Inc. designs and manufactures diaphragm type metering pumps for chemicals and industrial steam system equipment.

An unmatched combination of products, engineering and aftermarket services, we help our customers achieve tangible business results: lower operating costs, optimized performance, prolonged equipment life, mitigated risks and higher productivity.

Dynamic, specialized and high-tech products for water and energy management.

Jurop Vacuum Pumps are high quality vacuum and pressure pumps used in applications such as septic tanks, portable toilets, municipalities, agriculture, industrial tank cleaning, stationary suction plants, and much more.

TOOLS & HYDRAULICS

SPX FLOW brand Power Team specializes in high-pressure hydraulic technology. Through a broad range of leading-edge component parts, accessories and industrial tools.

SPARK ARRESTORS

Western Tydens, manufactures in the UK a complete range of diesel engine exhaust solutions.

Mechanical & Electrical

A wide range of fully automatic and manual shutoff systems and will help you find a system that meets your requirements.

MARTIN Sprocket power transmission and conveying products. Bushings, Couplings, Sprockets, Idlers, Pulleys, Screw Conveyors and more!

TEMPERATURE PRODUCTS

Newtex Performance TM flat knitted tapes employs a unique knitted construction that offers specific advantages over woven tape in certain applications.

Newtex Performance Materials are commonly used in refineries, foundries, shipyards, military & defense projects, construction sites, power generation, process equipment & petrochemical plants, and other environments. Learn more about the high temperature products that Newtex offers for your specific application or industry.

FILTRATION

When it comes to optimizing your process, you need just the right solution for the job. That is why customers around the world turn to 3M Filtration and Separation Solutions.

Dollinger has been able to develop and manufacture cutting-edge contaminant removal systems that dramatically improve air and fluid quality. We can thereby safeguard pipework, high-speed turbo compressors, turbines and blowers from damage or fouling of their moving parts, by the presence of harsh or aggressive contaminants, working under extreme operating conditions.

Rigging & Lifting

LIFTING
SYNTHETIC

Axiom Cordages Limited - Heavy Duty Flex Ropes,
Industrial Strand
Polyamide Ropes & Mooring Tail Ropes.

High-quality J&L rigging and sling products, Web & Round Slings, Load Binders, Sling Material, Ratchet Assemblies

LIFTING
NON SYNTHETIC

A leading innovator, developer and producer of the best synthetic rope solutions and advanced cords globally.

The ropes produced by Çelik Halat in a wide range of diameters from 6 mm to 83 mm have been used for many years in various sectors such as construction, marine, fishing, oil, mining, and in elevators, chairlifts, cranes.

With six decades of excellence in manufacturing speciality wire ropes, we have developed next generation crane ropes for different applications to meet specific needs of customers.

LIFTING

Welcome to the world's leading manufacturer of premium quality lifting equipment

Able Forge a leading manufacturer of quality rigging and lifting products for heavy industry applications which is diversified into manual chain blocks, lever hoists, lifting clamps, trolleys, bearing swivells, chains and rigging handling materials.

Green Pin® is the leading brand for chain and wire rope fittings in the world. Green Pin® offers you premium quality rigging equipment, unrivaled stock availability of 99% and first-class customer support.

Harsh working environments dictate the need for quality products for all commercial and industrial applications. At Certags, we pride ourself on the durability of the products we manufacture and can guarantee that our heavy-duty tags & labels will be suitable in any environment.

Rigging & Lifting

LIFTING

Safety is our first priority™

Yoke has a global presence and a superb reputation when it comes to rigging fittings such as hooks, swivels, ROV shackles, sockets, snatch blocks and more. Yoke products are DNV GL certified for complete traceability. Yoke offer a specialist line of equipment particularly designed for offshore applications and ROV activities.

CRANE LOAD BLOCKS

The Most Reliable Name in Lifting Products Services and Training

Certex sets the standard for rigging supplies, lifting products and world-class fall protection as well as the top industrial rescue courses and critical testing services.

Gunnebo Industries are global leaders in several areas within the lifting and material handling industry for which they manufacture products such as crane blocks, wire rope sheaves, chain & lifting components, shackles and lashing products. Their products are well known and established on the market as a premium product with outstanding safety.

WWW.HILMANROLLERS.COM

Hilman Inc. designs, engineers and manufactures high capacity rollers, powered heavy moving systems, and custom load moving solutions.

LIFTING

R&M's wire rope hoists, electric chain hoists & crane components will help you rise above your material handling challenges.

Robust and reliable products, constant innovation and patented designs ensure Tiger meets your lifting requirements. We are perfectly positioned to provide best-in-class products to our global customer base.

The manufacturing and distribution of high quality chain and chain related products since 1892.

Yale Hoist has been an affiliated master distributor for Yale lifting, rigging and hoist products since 1927

Rigging & Lifting

LIFTING

New and Innovative Products and Processes for the Lifting, Rigging, and Load Securement Industry.

MACHINERY

Conductix-Wampfler, fully owned by Delachaux Group, is one of the world leaders in the design and manufacture of efficient energy and data transmission systems for all types of mobile equipment and machinery.

LUBRICATION

The Kirkpatrick Group, Inc. has developed the world's leading wire rope lubrication systems through our decades of amassed expertise.

Wire Rope Dressing is manufactured from high quality petroleum base stocks, carefully blended with selected soaps and additives. It is designed as a field dressing for drum hoist ropes and is equally recommended for rope lubrication on shovels and drag lines.

SERVICES

At Ingersoll Rand, we pride ourselves as being the quality choice no matter the application. For years we have provided lifting and pulling solutions for various uses all over the world. If your business has a question, we will have an answer.

3M Fall Protection offers inspection, repair maintenance, and yearly certification for DBI-SALA® and PROTECTA® Brand products.

Oil States' Nautilus™ line of marine cranes is respected worldwide for quality, safety and engineering excellence. Nautilus™ marine cranes are in use around the world on all types of fixed and floating structures such as offshore production platforms, TLPs, spars, marine vessels and on dockside mount applications.

Reliable, Tough, Rugged Oil field recovery, offshore drilling, trailer winch, mobile crane and utility. PACCAR Braden hoists have allowed us to provide our customers with a high quality product, providing safe operation for their tower hoisting needs.
